PROJECT OVERVIEW

Web-based Helpdesk System for
IT Support Ticket Management
and WhatsApp Notification.

- ✓ Create Ticket
- ✓ Track Progress
- ✓ WhatsApp Notification
- ✓ IT Schedule
- ✓ Dashboard Monitoring

Technology Stack :

Laravel
MySQL
Tailwind CSS
Fonnte API

3 Main Modules

3 Database Tables

1 WhatsApp API

2 User Roles

User Roles

Responsive Design

BACKGROUND

MANUAL REPORTING

- 📞 Phone Call
- 📄 Paper Form
- 💬 WhatsApp Chat
- ❌ No Tracking
- 🕒 Slow Response

HELPDESK SYSTEM

- 🎫 Digital Ticket
- 📊 Dashboard
- 🔔 Notification
- ⚡ Real-Time
- ✅ Resolved

PROBLEM STATEMENT

Manual reporting processes often cause delays, miscommunication, and poor monitoring of IT support activities.

- Slow issue reporting
- Lack of ticket tracking
- Unstructured documentation
- Difficult status monitoring
- No automated notifications

PROPOSED SOLUTION

Develop a centralized web-based helpdesk system to streamline IT support operations and improve communication between users and technicians.

- ✓ Ticket Management
- ✓ WhatsApp Notification
- ✓ IT Schedule Management
- ✓ Real-Time Status Tracking
- ✓ Mobile Responsive Design

Kirim Tiket

Users can submit:

- Location
- Issue Category
- Description
- Evidence Photo

Results:

A new ticket is automatically created and sent to the administrator.

TICKET LIST

The laptop screen shows a web application interface. At the top, there's a 'Dashboard' header with a user profile 'Adonis'. Below it, the title 'Daftar Tiket Saya' is followed by a '+ Buat Tiket Baru' button. The main content is a table with five columns: 'Kode Tiket', 'Pelapor', 'Lokasi', 'Masalah', and 'Status'. The table contains six rows of ticket data.

Kode Tiket	Pelapor	Lokasi	Masalah	Status
TKT-1781895257	Tessa	Ruang Guru	CCTV bermasalah	Open
TKT-1781885236	Tessa	Lab IPA	Mouse rusak	Resolved
TKT-1781884086	Tessa	Lab Komputer	CPU rusak	Resolved
TKT-1781882828	Tessa	Ruang Guru	Monitor Rusak	Resolved
TKT-1781840425	Adonis	Ruang Guru	Printer Rusak	Open
TKT-1781766161	Adonis	Ruang Guru	Printer Rusak	Resolved

The smartphone screen shows a mobile application interface. It has a similar layout to the web version, with a 'Daftar Tiket Saya' title and a '+ Buat Tiket Baru' button. The table is simplified, showing only 'Kode Tiket' and 'Pelapor' columns.

Kode Tiket	Pelapor
TKT-1781885236	Tessa
TKT-1781884086	Tessa
TKT-1781882828	Tessa
TKT-1781840425	Adonis
TKT-1781766161	Adonis

Information Displayed

- Ticket Code
- Reporter
- Location
- Issue
- Status

Benefits

Easy ticket tracking and monitoring.

TICKET DETAILS

Detail Information

- Ticket Information
- Evidence Photo
- Current Status
- Technician Notes

Purpose

Provide complete issue documentation.

The laptop screen displays a web application for ticket management. At the top, it shows 'Status: On Progress' in blue. Below this is a section for 'Catatan IT:' with a text area containing 'CCTV berjalan lancar kembali perangkat sudah diganti baru'. Underneath is a section for 'Ubah Status Tiket' with three buttons: 'Open' (yellow), 'On Progress' (blue), and 'Resolved' (green). Below that is a section for 'Catatan Teknisi' with a text area containing 'CCTV berjalan lancar kembali perangkat sudah diganti baru'. At the bottom of this section is a button labeled 'Simpan Catatan'.

The smartphone screen displays a mobile version of the ticket management application. It shows 'Detail Tiket' at the top. Below this, it lists ticket information: 'Kode Tiket: TKT-1781885236', 'Pelapor: Tessa', 'Lokasi: Lab IPA', 'Masalah: Mouse rusak', and 'Deskripsi: tidak muncul cursor'. There is a section for 'Foto Bukti:' with a photo of a mouse. Below the photo, it shows 'Status: Resolved' in green. Underneath is a section for 'Catatan IT:' with a text area containing 'mouse sudah diganti'. At the bottom is a section for 'Ubah Status Tiket' with a button labeled 'Open'.

WHATSAPP NOTIFICATION

Automated Notifications

The system automatically sends WhatsApp notifications for every ticket status update.

- New Ticket Created
- Ticket In Progress
- Ticket Resolved
- Technician Notes Delivered

Benefits

Faster communication between users and IT support staff.

IT SUPPORT SCHEDULE

Features

- Maintenance Planning
- Equipment Inspection
- Routine IT Activities
- Technician Schedule Management

Benefits

Helps organize preventive maintenance and daily IT support activities.

IT SUPPORT SCHEDULE

Features

- Maintenance Planning
- Equipment Inspection
- Routine IT Activities
- Technician Schedule Management

Benefits

Helps organize preventive maintenance and daily IT support activities.

RESPONSIVE DESIGN

Successfully Implemented

- ✓ Authentication System
- ✓ Ticket Management
- ✓ Evidence Photo Upload
- ✓ WhatsApp Integration
- ✓ IT Schedule Management
- ✓ Responsive Design
- ✓ Technician Notes
- ✓ Status Tracking

Outcome

The system is fully functional and ready to support IT service operations.

SYSTEM ADVANTAGES

FASTER RESPONSE

Issue reports are received and handled more quickly.

MOBILE FRIENDLY

Accessible from desktop, tablet, and smartphone.

WHATSAPP ALERT

Automatic notifications for ticket updates.

DOCUMENTATION

Evidence photos and technician notes are stored.

TICKET TRACKING

Monitor ticket progress from Open to Resolved.

MAINTENANCE PLANNING

Schedule and manage IT activities efficiently.

CONCLUSION

ACHIEVEMENT

- ✓ Ticket Management
- ✓ WhatsApp Integration
- ✓ Responsive Design
- ✓ IT Schedule
- ✓ Status Tracking

PROJECT SUMMARY

- 2 User Roles
- 3 Database Tables
- WhatsApp Notification
- Mobile Friendly
- Real-time Ticket Monitoring
